

## Director ChangeTracer Version 3.2.0

( © IQBOT® 20110221 )

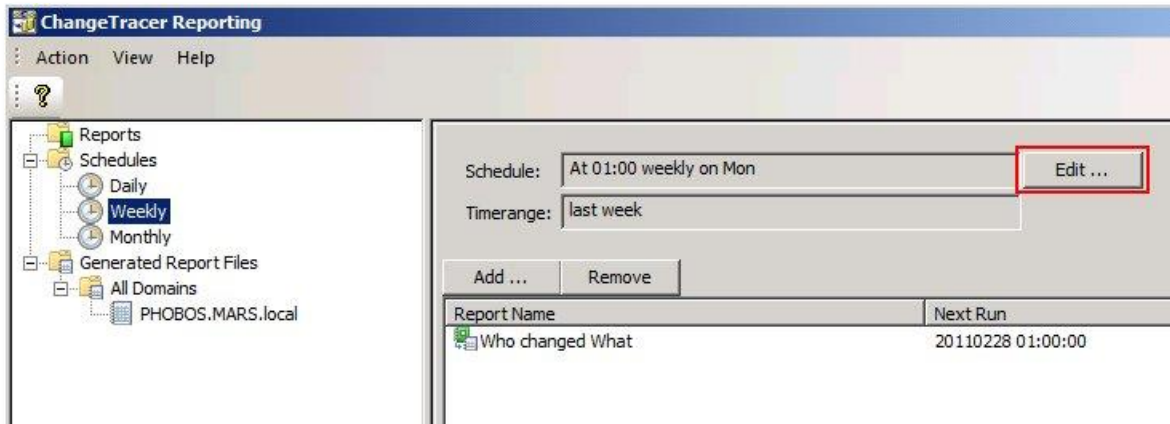

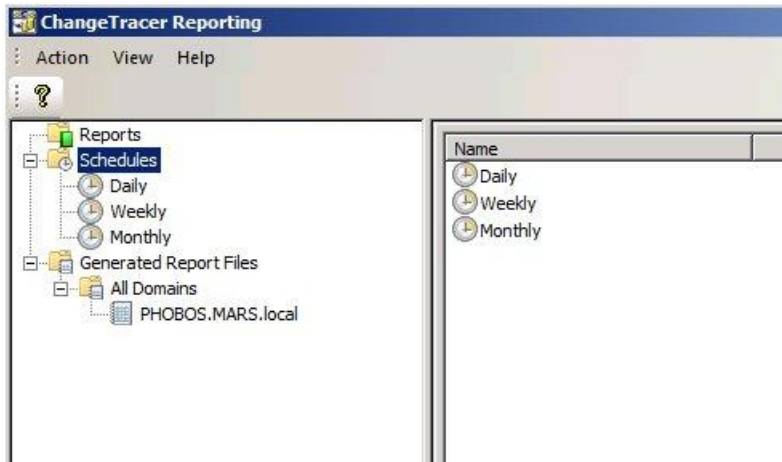

### Changes to Reporting Tool:

#### (1) New Schedules

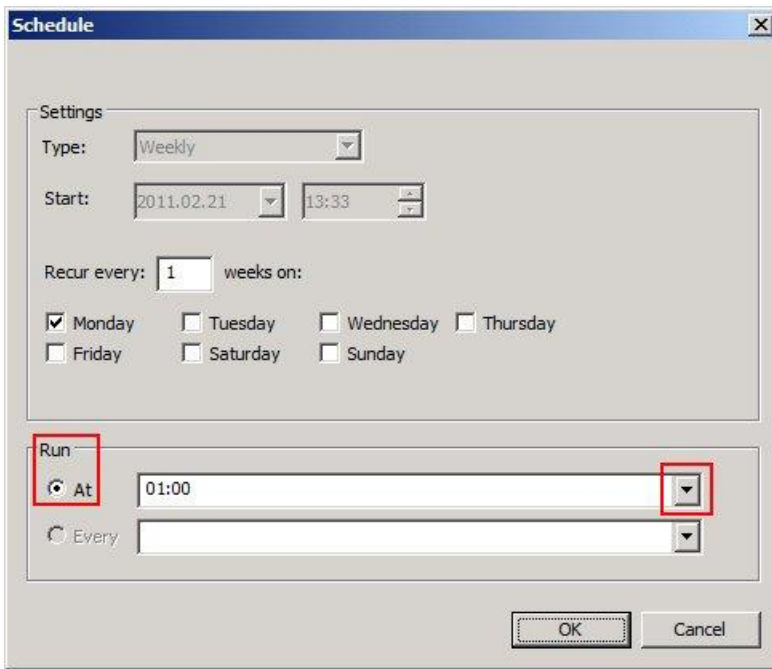

Type: User Experience/Usability Improvement

Schedules were enhanced.  
Out-of-the-box schedule *Monthly* was added.

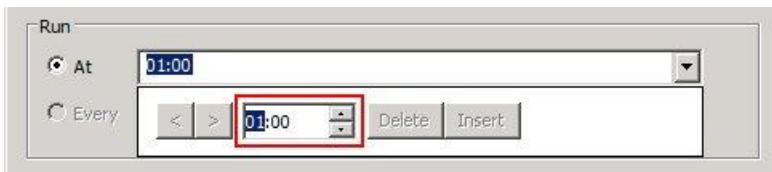

See the following screenshots.

When you push 'Edit ...' a new dialog for schedule definition opens.

You can only change the run time ( Run – At ) for out-of-the-box schedules. To do this push the drop-down arrow

Change the time and push the drop-down arrow again. Then you have to push the OK button to save the change.

**NOTE:**

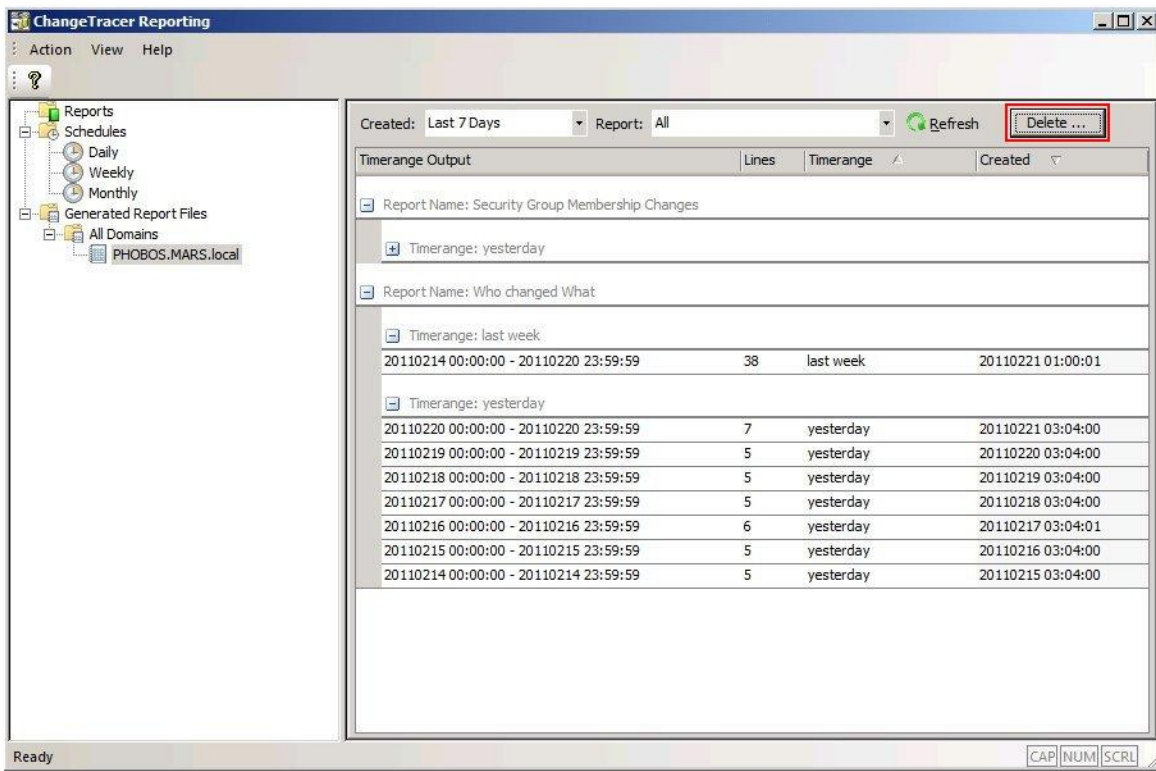

While changes to out-of-the-box schedules are limited there are many new capabilities which can be used in future versions.

**(2) Delete Reports**

*Type: User Experience/Usability Improvement*

No longer needed reports can now be deleted by the user.

See screenshot below.

A push on *Delete* opens a dialog as follows.

By default reports older than 90 days can be deleted. Simply overwrite the number of days and push OK when you are ready to delete no longer needed reports.

**NOTE:**

Deletion of old reports cannot be undone.
